

# CHS WOODSIDE™

---

## High-load Crop Oil Concentrate

- CHS Woodside™ is a highly concentrated blend of emulsifiers and methylated seed oil. The product is designed for use with a broad range of herbicides where a high surfactant oil concentrate adjuvant is recommended or allowed. High surfactant oil concentrates allow lower use rates than standard oil adjuvants.
- CHS Woodside increases contact activity and penetration of the spray, while also providing uniform coverage on leaf surfaces.

### Application Directions

Typical use rates will be  
0.5-1% v/v (2-4 qt/100 gal of water)  
or 0.25-0.5% v/v (1-2 qt/100 gal  
of water)

### Package Size

2x2.5 gal case

**Always read and follow label directions.**
